

*As Fire Trucks Australia started its activity as a Scorpe distributor, it is very familiar with dealer issues and knows that after-sales service and product education are the key to success and customer satisfaction.*

*Fire Trucks Australia has a qualified team of Scorpe technicians and provides maintenance in its warehouse or on customers site if required.*

*Fire Trucks Australia organises several seminars during the year in its facilities for end users. Please contact us if you want to participate on one of our sessions.*
