

RAPIER

This heavy duty PVC/Nitrile rubber-covered fire hose is ideally suited to brigades and industries where hoses require protective covers against abrasion damage and chemical degradation.

The woven polyester fire hose jacket gives the Rapier a very high bursting threshold and the synthetic rubber extrudate protects the hose from oils, grease and chemicals, allowing it to be easily wiped clean after use.

The Rapier is a very flexible hose with good handling characteristics. This hose is suitable not only for the professional firefighter but also as a strong, high quality lay-flat for use in plant wash down, mine-dewatering, chemical transfer and as a multi purpose industrial hose.

Other sizes and colours are available subject to minimum order quantity.

Specifications

 INSIDE DIAMETER	 MASS PER METRE	SHORT LENGTH BURSTING PRESSURE	 RECOMMENDED WORKING PRESSURE	 COIL DIAMETER
38 mm	0.24 kg	5400 kPa	1500 kPa	0.40 m
50 mm	0.32 kg	5100 kPa	1500 kPa	0.41 m
64 mm	0.40 kg	4800 kPa	1500 kPa	0.43 m
76 mm	0.48 kg	4400 kPa	1500 kPa	0.45 m
90 mm	0.56 kg	4200 kPa	1500 kPa	0.47 m
102 mm	0.64 kg	4000 kPa	1500 kPa	0.50 m
152 mm	0.96 kg	3900 kPa	1200 kPa	0.52 m

Standard length; Fire - 30 metres, Industry - 100 metres. Custom lengths can be manufactured on request (up to 300 metres). Crusader Hose reserves the right to modify any specification as part of our ongoing product development.
